1 Citations

Energy systems were described by Odum [1996], and later refined [see Odum, 1996, p. 10, ch. 2]. Two authors are cited as Brown and Ulgiati [2004]; three or more as Hall et al. [2014]. Several works can be cited at once [Brown and Ulgiati, 2004, Hall et al., 2014]. The author alone is Odum and the year alone is 1996. A plain Odum [1996] behaves like `\citet`, and a page note alone gives [Odum, 1996, p. 10].
